THE 1952

Cat's Tale

BURKE COUNTY PUBLIC LIBRARY

published by the students of

MORGANTON HIGH SCHOOL

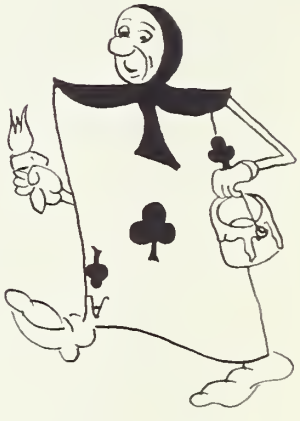
Morganton, North Carolina

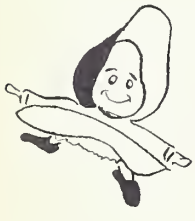
Volume IX

FOREWORD

As a tribute to the Seniors, who greet with mixed emotions the end of their final year at Morganton High School, and as an inspiration to the underclassmen, we, the staff of the 1952 CAT'S TALE, present this volume.

We have chosen as our theme ALICE IN WONDERLAND, hoping that in years to come it will recall fond memories of the WONDERLAND OF YOUTH.





DEDICATION

In appreciation of his zeal to help us to become good citizens of tomorrow, and for his untiring efforts in both school and community activities, we, the 1952 Cat's Tale staff, dedicate our annual to the "King of our Hearts."

Reasons For Achievement Rating

It is usually true that a student whose achievement rating is "A", or "B" is careful and prompt in the preparation of required work, is resourceful in utilizing suggestions, has sufficient interest and initiative to undertake original projects, and shows leadership in classroom activities.

Reasons For Lower Rating	1st Per.	2nd Per.	3rd Per.	4th Per.	5th Per.	6th Per.
Lack of foundation						
Lack of attention in class						
Poor and ineffective study habits						
Failure to make up work						
Too many absences						
Lack of interest in school						
Need for more time on subject						
Too many outside interests						
Poor sense of responsibility						
Careless preparation of work						
Conference with parent requested						

The faculty invites visits from parents, by appointment, to discuss students conducts or tendencies.

EVER ONWARD TO THE SUMMIT

We search the horizon for
What the future holds in store,
Striving to reach the topmost mount;
Climbing slowly but surely
Every step of the way upward,
Lingering only for the things that count.
We, while others stumble in darkness,
Shall seek the lighted path,
Retaining knowledge that to us was shown;
Cherishing fond memories
Of "golden rule days" now long removed,
Reaping wisdom from seeds long since sown.
So, as we depart at last,
Leaving behind empty echoing halls,
Our past can be reviewed in a single day;
Showing to all, our triumphs and failures,
Joys and sorrows now left behind
As we begin ascending the upward way.

CLASS HISTORY

Can you believe it? We, the class of '52, are SENIORS! Many centuries ago, in 1948, we began our high school career. A bunch of poor, half-scared-to-death freshmen managed to elect their class officers: president, Bobby Kirksey; vice-president, Kakie Ross; secretary, Sara Jo Hensley; treasurer, Ray Waters. Our Student Council representatives were Carolyn Baker and Jim Patton. We fondly recall dreaming of "Midsummer Nights" and experimenting in general science. The biggest event of our first year, next to rat week, was "Stunt Night." We had a country school for our stunt and won second place.

September, 1949, found us bravely encountering another year at M. H. S. Just being sophomores was enough to lend some spirit to the struggle. At least we had only three years to go. Our class officers that year were these: president, Annette Beck; vice-president, Bobby Kirksey; secretary, Gene Williams; treasurer, Kakie Ross. Student Council representatives were Sara Jo Hensley and Bobby Kirksey. Our stunt was "Among Us Morgantonians," and once again we came in second. We worked hard, were good most of the time, and ended the year with a class picnic on the last day of school.

Our junior year was a tough one, but it was a lot of fun. The officers had more work than usual getting the Junior-Senior banquet organized and financed. These officers were the following; president, Annette Beck; vice-president, Garry Dale; secretary-treasurer, Kakie Ross. Our Student Council representatives were Jim Patton and Dottie Whisnant. Our stunt was comic-strip characters. It didn't go off so well for some reason, probably because we were more interested in raising the money than in presenting the stunt. We realized that our work was worthwhile on the night of the banquet. The gym was transformed into a lovely colonial garden, and we all pretended for awhile that we were real Southern ladies and gentlemen.

Now we are SENIORS! It's a wonderful feeling to be able to sit in front in chapel, to eat first in the cafeteria, and to realize that IT WON'T BE LONG! The officers we have chosen to lead us in our final year are these: president, Dottie Whisnant; vice-president, Edward Woods; secretary, Sarah Adams; Treasurer, Joy Fisher. Ed Speir is president of the Student Council and Dottie Whisnant is secretary. Our class representatives are Sara Jo Hensley and Ray Waters. We have had a good four years, and are grateful to all the teachers who have helped us on our way. In a little while it will be stunt night again, then our much anticipated trip to Washington, the Junior-Senior, and finally we'll be walking down down to receive our diplomas. We'll be thinking of our years at M. H. S. and we hope it won't forget us for a long time.

CLASS PROPHECY

The future has become the present, and the past is fading into oblivion. The world, in general, is a Utopia. All of my old classmates -- well, practically all, are prominent figures here in the year 1998. Morganton is now the second largest city of the world (I would state the population, but the figure has proved to be impossible to print, even on our ultramodern presses). All travel is by spaceships and rockets which exceed the supersonic speed zone. The world has made progress undreamed of in 1952, and our universe has been explored from the largest planet to the smallest asteroid. Last week a ship began its search for a universe similar to ours, believed to be located a few million light years from Pluto. And now, after much research, checking, and double checking, I am prepared to relate to you, dear reader, the following facts hereby stated in this manuscript with great satisfaction.

This might be termed ancient, though very important, history. In 1962, after ten years of "fireless" research and experimentation, scientist Sarah Ruth Luckadoo perfected her "Elixir of Youth," which increased the life span to one hundred seventy-five years. This explains our youthfulness. She is now retired and resides on a small asteroid just off Jupiter.

In 1963, Roy Barnwell, renowned sculptor, began the erection of a large statue of Luckadoo in downtown Morganton. It was completed in 1966, but a bystander sneezed while standing too close at the dedication and Barnwell was forced to sculpture another likeness.

So much for the past. The present finds Charlie Duckworth, uranium magnate, back in Morganton. Charlie spends most of his time on the moon, near his Lunar Uranium Company. He has disclosed that the purpose of this visit is a conference with Benny Franklin, the vice-president of his company.

Jackie Abee, leading florist of the age, held the formal opening of her Venusian Flower Shop yesterday and presented a black orchid to every millionth person passing through the doors.

Also located on Venus is the home office of Universal Dairies, operated by Fermin Bingham, who guarantees milk bought from him to be fresh. The customer has no argument, because Fermin has employed the Paul Beach Interplanetary Transport to move the cows from customer to customer, and each customer secures his own milk. Paul's most trusted pilots are Jack Russ, Carroll Smith, and Hugh Crump.

Gene "Hot Rocket" Williams is recuperating from serious sunburns received while flying too close to the sun in his

souped-up spaceship. Norman Melton, outstanding physician, says that Gene should recover within a day because he administered "giggle dust," a new drug, to the burns. When questioned about his mishap, Gene said that he was racing Richard "Fire Can" Oxford, and failed to notice the sun. By Jove and egad!

Charles Anderson was recently appointed ambassador to Pluto, where Anne Braddock, his secretary, is making preparations for his arrival. He will be flown to Pluto by the Giles Rocket Lines, pioneer in rocket transportation. President of her lines is Leslie Patton, who is aided by a host of efficient secretaries, among whom are Faye Hennessee, Margaret Waldrop, Jean Propst, and Nancy Williams.

Phil Winchester is the current rave of the movie world. He is reputed to be the greatest lover since Valentino and can be seen regularly on any video set throughout the universe. Phil made his screen debut in "I'm Not What They Say." Co-star of the picture was Dottie Whisnant. Others in the cast were Mr. and Miss Universe, better known as Robert Carter and Kakie Ross. They are predicted to become the foremost stars of the universe. Directing the film was Jack Dale, famous director and producer.

The firm of Boggs, Cheslock, and Hensley has just completed its detailed map of the universe. If you use it, we hope you don't get lost. Incidentally, Sara Jo Hensley recently finished her painting of "The Man from Mars." Said one critic, and I quote, "It's out of this world." Ariall and Barbara agree.

Located on Saturn is a source of perpetual noise, the radio station owned and operated by Bobby Kirksey, LBNL (Last But Not Least). His esteemed announcers are Mozelle Buff and Joy Fisher.

Clarence Beam thrills the universe with his heavenly music from the studio here in Morganton. Clarence is the band leader for the top band in the universe; Clarence says his band is on the Beam.

Harriet Burns has established her private bank after writing the best-selling book of the year. In case you are interested, the title is "How to Walk on Crutches in 9 1/2 Easy Lessons".

Donald Yelton is the proud proprietor of a school for spaceship piloting. He suffered a severe loss last month when one of his students, Ann Alwran, flew through the rear wall of his school immediately after graduating. Ann was uninjured, but you should see that wall!

Well, dear readers, this is the conclusion of this manuscript, but before I write "Finis" on it, I want to wish for everyone in the Class of '52 a very happy future.

CLASS WILL

After much careful thought and consideration, and realizing that our days are numbered in M. H. S. we, the graduating class of 1952, do hereby leave this our last will and testament.

We know that we are not approaching the end but the mere beginning. With this in mind, we open our eyes and minds to take in all that lies before us, but we do not leave without regret. For this reason we leave our most valuable and prized possessions to the underclassmen, who for four years have been like brothers and sisters to us.

Article I: To the faculty we leave our most humble appreciation for the time and energy they gave preparing us for the many roads we must travel.

Article II: To the rising seniors we leave our ability to study to the minimum and have fun to the maximum during the senior year.

Article III: To those who shall follow us we do hereby bequeath in this our last will and testament, our meager talents and possessions as listed below.

I, Sarah Adams, will my ability to make honor roll every semester to Kenneth Simpson, hoping he will study as hard as I did.

I, Mac Amos, leave my beautiful black hair to Jane Styers. I know she will appreciate it.

I, Bill Baker, leave my fascinating "wink" to any eligible bachelor who wants a date. It is very effective.

I, Carolyn Baker, do not bequeath Charles Brittain to anyone, because I am taking him with me.

I, Yates Barlow, will to Eddie Bridges my unusual ability to hear anyone in History IV pop chewing gum. May he help "Put" as much as I did.

I, Annette Beck, leave my ingenuity used in putting out the best (?) annual ever to all future editors.

I, James Berry, leave my talent to take good pictures for the CAULDRON to the next person in line for the job. May he have as much patience as I had.

I, Frances Bolick, will to Myrtle Carswell my job of playing the piano for the senior class whenever the occasion arises.

I, Louis Brinkley, leave my timid ways to Bill Harbison. I think the teachers will like that.

I, Charles Brittain, will my title of "Most Romantic" to Rick Benfield, provided he will fill the position as well as I did.

I, Coila Mae Buff, bequeath my pleasing personality and my pretty blond hair to Lucille Whisenant.

I, Ann Butler, do not leave my ability to catch a man to anyone. It is too much fun.

I, Garry Dale, will to just any poor sucker my license tag. The number has been sent into Raleigh too many times.

I, Jaunita Deal, bequeath my quiet ways in study hall to Bill Clark.

I, Macal Ezell, leave my gift of keeping my big mouth shut in class to Sonny Martin. Good luck, Sonny.

I, Bobby Fox, will my ability to play

the strong silent type and my position as captain of the football team to Kent Hogan.

I, Betty Sue Franklin, leave my way of getting along with all of the teachers to Eleanor Butler.

I, Sonny Garrison, bequeath my books, desks, pencils, and any memories that go with these to Adair Hatcher. I give these with the deepest sympathy.

I, Bess Hallyburton, leave my gift of gab to Catharine Newton. Maybe it will get you a diamond as it did me.

I, Bill Harbison, gladly leave my name with you. I believe things will be less confusing that way.

I, Joy Hicks, will gladly disclose my secret of how to catch a man and get him to propose, to Mary Frances Garrison, Maxine Lybrand, Carol Wayt and Mary Jo Whitley, provided they will leave a few men for the other girls.

I, Mary Frances Lane, leave my dancing blue eyes to Barbara Johnson.

I, Margaret Mabe, gladly leave my title of "Victrola" to Sylvia Elmore. I hope she does not live up to the name.

I, Sammy Nowlin, will my voice, that will out yell any girl in school, to Nelda Causby. Maybe she can use it in the chorus.

I, Jim Patton, leave to Jack Curlee, my reputation of not spending a nickel unless absolutely necessary. He is also welcome to the nickname "Worm."

I, Noreene Phillips, bequeath my wonderful sense of humor to the biggest grouch in school. I want him or her to be able to appreciate a good joke as well as I can.

I, Sarah E. C. Propst, leave my two middle initials to Betty Sue Williams. I am tired of being called "Alphabet Propst."

I, Marlene Self, will to Jo Teaney my talent to contract a cold on the days that oral reports are due.

I, Carolyn Simpson, will to Katharine Booth all my wads of chewing gum under the desks and my unique way of driving the teachers insane.

I, Ed. Speir, will my dignified manner to the next president of the Student Council.

I, Jimmy Tolbert, bequeath my position of editor of the CAULDRON to Mary Lee Copeland. I am glad to get rid of it and the many headaches that go with it.

I, Ray Waters, will my tenor voice to Hamp Erwin, so he can serenade his many girls.

I, Max Williams, leave my drawl to Henry Nichols, who could well use a little of it.

I, Maxine Williams, leave my height to Frances Dale. You can really see more of the world with it.

I, Shirley Williams, bequeath my pretty curls and my ability to say "sthmo-o-th" to Dean Cline.

I, Ed Woods, leave my ability to acquire honors to Donald Denton, who seems to be following in my footsteps.

The foregoing bequests are our most prized talents and posessions. We leave them in your care, and may they help or hinder you as much as they did us.

ACKNOWLEDGMENTS

By special permission the theme of this yearbook has been based upon, and the illustrations herein have been adapted from the original Walt Disney illustrations from the Walt Disney motion picture "Alice in Wonderland," copyright 1951, Walt Disney Productions.

Photograph credits go to "Gerard's Studio of Photography" for both individual and group pictures, except for football action shots; these were supplied by "The News-Herald."

The cover was manfactured and designed by the Durand Company.

The automobiles for class officers' pictures were graciously lent by Mrs. H. L. Shuey "Cadillac," Mr. Troyal Williams "Buick," Miss Betsey Giles "Mercury " and Mr. Vernon Garrison "Willys" jeep.

The 1952 Cat's Tale was printed and bound in the U.S.A. by the American Yearbook Company of Owatonna, Minnesota.

We also wish to thank the business firms who have given in a substantial way an expression of their faith in our endeavor.
